

# FONTAIN

## ENVIROMENTAL POLICY

Environment and print are not exactly something that go hand in hand but at Fontain we are very conscious of this and do all we can to ensure that we are as environmentally friendly as possible. All hazardous waste is strictly managed and collected by approved companies. Whenever possible we use inks produced using vegetable oils and we offer knowledgeable advice and guidance on the use of recycled papers and boards. Our waste paper and our printing plates are recycled and our modern machinery has programmable wash up devices that significantly reduce the amount of solvent used. We are constantly looking at new ways of reducing our carbon footprint and we are committed to continual improvement with regards to this. Set out below is our policy of commitment to the environment

We will:

- Be aware of all new environmental legislation and regulations
- Comply with all environmental legislation and regulations
- Comply with other requirements to which we are accredited such as FSC & Carbon Neutral
- Aim to only use FSC certified material where possible
- Assess the environmental impacts of all working practices and product manufacture
- Minimise energy use and its associated co2 emissions
- Minimise the generation of waste
- Maximise the re-use of materials and products
- Maximise the use of recycled materials and products
- Maximise the recycling of materials and products
- Assess the whole life environmental performance of purchases
- Minimise raw material consumption
- Maximise the use of material from renewable sources
- Prevent all avoidable pollution to air, land and water
- Maximise the use of local products and local workforce
- Minimise the use of water
- Continually measure our carbon footprint
